

RMS CROSS-WALK

Survey Responses and Next Steps

Survey Respondents

- 8 Caucus Members broadly representing the Caucus with State, Federal and a cross section of the Advisory Committee and other stakeholders
- All RMS have coverage but due to the small number of reviewers, 9 only have 1 reviewer
- Good Coverage for Ag and Flood Issues
- Using a weighted Scale Flood, Urban Run Off and Water Use Efficiency at the top

When thinking about which of the other Resource Management Strategies (RMS) are most important to reference in the Land Use RMS, what would be your top 3-5 priorities?

NEXT STEPS

If you are providing Coverage –

1. Watch for RMS Workshops. Not all RMS's will have workshops. If you are not sure, check with the facilitation team.
2. Please check the RMS Draft's Page
<http://www.waterplan.water.ca.gov/cwpu2013/2012-mar-rms/index.cfm>
3. Many are posted now and all will be posted by July 15.
4. Read the Reviewers Instructions and provide comments per instructions.
